DIGITAL AGE

Digital Age is an exhibition that showcases the unique artistic expressions, creativity, and talent of our student choreographers and dancers. This showcase is inspired by our ever changing relationship with technology and digital life. Through diverse choreography inspired by various trends + concepts centering technology, relationships, and connection, this show asks what it means to be human in a world where our bodies exist in physical space – and digital ones too.

We are thrilled to present this captivating work, featuring dancers from both our middle school and high school programs, with new choreographic works from our high school “**Dance For Industry**” 6th block students. Under the guidance of The SAE’s Head of Dance, Candi Spahr & Lead Choreographer, William Miller, Jr., **Digital Age** combines dance, inquiry, and storytelling into a show that inspires and sparks new thought or reflections on our relationship with digital life.
